*** DELIVERY APPOINTMENTS MUST BE SCHEDULED 24hrs IN ADVANCE - 215-271-0610 EXT 125 ***

Failure to meet the above purchase order requirements may result in the shipment being refused at the suppliers expense.

The product being ordered on this purchase order is anticipated to be “fit for use” in the continued manufacture of goods for our customers. By acceptance of this purchase order, supplier cannot make any changes in materials, formulation, or manufacturing process without prior written notification. Product not meeting the strict standards that have been developed and provided could result in the filing of a claim for damages. Said claim will be for no less than the cost of the product purchased on this order, and may include items such as transportation costs, further manufacturing costs, other raw materials added in the continued manufacturing process, wages and related costs expended in the further manufacturing, and loss of profits. The buyer reserves the right to set-off these amounts against future purchases if the matter is not resolved within “45” days of submission of a documented claim for damages.
